

LOCAL CABBIES WANT TO ADVANCE RATES

Increase in Price of Feed Given as Reason.

APPEAL TO THE COMMISSIONERS

Complaint Made Against the Pennsylvania Cab Company Not Upheld by Hack Inspector, Who Reports Employees Do Not Violate the Laws.

Mr. W. E. Thomas, of 241 Fourteenth Street northwest, recently wrote to the District Commissioners declaring that under a recent order put in effect at the Sixth Street passenger station the Pennsylvania Cab Company exercises rights which other cabs do not have.

He states that the agents of the railroad company are allowed to solicit for their cabs, while the public vehicle drivers have not that privilege. Mr. Thomas also requests permission for the cab drivers to charge higher rates on account of the increase in the price of feed.

Gats and Corn Have Both Gone Up

"When oats were from 25 cents to 25 cents a bushel," he says, "and corn \$1.75 to \$2.50 a barrel, had the same rate that applies now, but for months we have had to pay 65 to 82 cents a bushel for oats and \$3.50 to \$4.25 a barrel for corn, with no increase in the carriage rate."

Mr. Thomas says that a bill has been prepared by the Hack Inspector, and approved by Major Sylvester, which provides a fair rate, and he says all that has been wanting is some action by the Commissioners which he hopes they will grant the drivers and owners of teams.

Hack Inspector's Report.

Mr. Thomas' communication was referred through the Police Department to A. R. Lamb, the Hack Inspector, who has submitted a report in which he states:

"The employees of the Pennsylvania Railroad Company have not been and are not now violating the laws or regulations as I understand them. The only public space occupied by the company in connection with their cab service is upon that portion of B Street immediately west of the station which was at one time set apart by police regulations for the exclusive use of their cabs.

The right to such exclusive use of the public space was, however, denied by

Judge Scott, of the Police Court, more than a year ago, in the case of the District of Columbia against James Smith. Since this decision the drivers of other public vehicles have enjoyed equal privileges with those of the company, and the stand has been maintained in the same manner as have all other stands.

Solicit on Company Property.

"Inside the depot, upon property wholly controlled by the company, the employees do solicit patrons for the cabs operated by the company, but no unnecessary noise is made, and I do not know of any law to prevent this practice. The enforcement at the depots of the police regulation prohibiting soliciting of patronage by the drivers of public vehicles has brought quiet and good order in place of a very noisy, disorderly demonstration which before greeted every passenger that appeared, and I have been informed by many drivers that they get as many jobs as they did before, and that they are glad the regulation is being enforced."

FINED SIX DAYS' PAY.

Sentence Imposed on Policeman Sullivan for Dereliction of Duty.

The trial papers in the case of Private J. P. Sullivan, of the police force, were yesterday forwarded to the District Commissioners by Major Sylvester.

Private Sullivan was tried on the charge of failing to report for duty without having secured the necessary certificate from the police surgeon of his precinct. The trial board found him guilty.

Major Sylvester has approved that finding and recommends that instead of a money fine, there be a disallowance of time. In view of the statement of the police surgeon in charge of the case, and the certificate furnished by the Board of Surgeons, Major Sylvester recommends that Sullivan be fined six days' leave of absence, to which he might otherwise have been entitled, and that he be warned to comply strictly with the rules and regulations respecting the performance of duty.

All of the members of the police force are enjoined to do likewise.

Civil Service in Porto Rico.

Dr. George W. Ledley, chief of the Service Record Division of the Civil Service Commission, will leave Washington Monday for Porto Rico to establish a system of civil service examinations in the island, and appoint a board of examiners.

MANUAL TRAINING SUPPLIES.

General Hoynton Asks for a Bill to Reauthorize Their Purchase.

Gen. H. V. Hoynton, president of the Board of Education, has transmitted to the District Commissioners a letter from Prof. A. T. Stuart, Superintendent of Schools, with reference to the purchase of books and apparatus for the two new manual training schools. General Hoynton asks the Commissioners to obtain from the Comptroller of the Treasury a ruling on the question raised by Superintendent Stuart relative to the expenditure.

It appears that the appropriation act for the current year carries an item of \$25,000 for furniture and equipment for Manual Training School No. 1, and \$37,000 for School No. 2 for the same purpose, and Mr. Stuart desires to know whether the apparatus is to be purchased out of these appropriations or whether the necessary books of reference must be purchased from the contingent fund. Superintendent Stuart writes:

"The principals of these schools desire to purchase as an essential part of the equipment of these schools a large number of reference books, technical in character, for the use of the teachers in the various departments of manual training.

"It was the intention of the Board of Education in asking for this amount to make special provision for necessary technical books under the head of equipment, it being understood that the contingent fund was not large enough to be used for this purpose, although books of reference are specially named in that fund.

"In fact the term 'equipment' was designed to provide everything in the line of machinery, apparatus, books, etc., that might be necessary to put these schools in working order. If after special provision has been made by Congress for this purpose any considerable part of the equipment must be purchased from the contingent fund, the purpose of the appropriation will be therefore defeated, and the contingent fund materially crippled. In this case the books cannot be bought at all if their cost is to be charged to the contingent fund, as that fund will barely suffice for current needs."

MISSING FROM HOME.

Young Bernard Collins' Absence Worries His Relatives.

The continued absence of Bernard Collins from his home, 1238 Four-and-a-half Street southwest, has occasioned his relatives no end of uneasiness, and the police have been appealed to to assist in the search for the young man.

He is a youth of fifteen years and has a good home from which he has been missing for nearly two months. Since then nothing has been heard from him. He is tall and slender, has light hair, blue eyes, and is prepossessing in appearance.

FORTY-THREE JANUARY FIRES.

Acting Chief Engineer's Report Places Property Loss at \$14,200.

Mr. William T. Bell, Acting Chief Engineer of the Fire Department, yesterday submitted to the District Commissioners a report of the operations of the department during the month of January. The report shows that the department responded to fifty-two bell alarms during the month, three of which were false. The forty-three fires caused a loss of \$14,200, the property involved bearing an insurance of \$10,200. There were also thirty-four local, or silent, alarms sounded during the same period, the fires occasioning them entailing a loss of \$2,255. The total loss for the month was \$16,455, or about 13 per cent of the total insurance, \$125,235.

During the first seven months of the present fiscal year there were 267 bell alarms sounded, as against 235 for the corresponding period of the previous year, or an increase of thirty-two, and 172 local alarms, against 142 for the first seven months of the past fiscal year, an increase of twenty-nine. While up to the first of February there had been sixty-one more alarms than during the corresponding period of the previous fiscal year, the total loss was \$20,710 smaller.

One of the fires occurred in brick building, twenty-nine in wooden construction, one in a stone structure, one in a boat-house, and four were in brush or woods. Six of the fires were confined to the place of origin, the flames in the other instances traveling only to the adjoining building.

SILAS ORDERED HELD.

Result of Inquest in Killing of Nettie Carter.

The coroner's jury yesterday returned a verdict holding Henry Silas, colored, for the action of the grand jury on a charge of having fired the shot which killed Nettie Carter, at her home, 2224 H Street northwest, Thursday night. The inquest was held at the New Jersey Avenue police station, and was presided over by Coroner Nevitt, it being his first case in several months. The story of the shooting as developed at the inquest differed in no material point from the story already published.

Major Carrington appeared in the interest of the accused, and Colonel Birmingham for the District Attorney's office.

Injured While Coasting.

While coasting on the old Stone estate, near the corner of Spring Road and Holmead Avenue northwest, about 10 o'clock yesterday morning, Abraham Wingate, jr., of 1215 Lydecker Avenue northwest, ran into a tree and received a severe cut in the forehead. He was taken home by his companions, and attended by Dr. Benjamin F. Gibbs. The little fellow is but five years old.

GROCERY CLERKS ORGANIZE.

Ford Branch of the International Protective Association.

An enthusiastic meeting of the retail grocery clerks was held Friday night at Typographical Temple, 425 G Street northwest, for the purpose of forming a local branch of the Retail Clerks' International Protective Association.

This association has at the present time, thoroughly organized and in full working order, two other local branches—the Retail Clerks' Union No. 282 and Registered Drug Clerks' Association No. 240. It is strictly a fraternal organization, composed entirely of retail clerks in all branches of trade, and has for its objects the protection of its members in case of sickness or distress, the abolition of the unnecessary evil of selling goods on Sunday, and shortening the hours of labor by educating the public to the economy of "daylight" purchasing.

The grocery clerks elected the following officers: J. H. Brecht, president; William H. Tyndall, vice president; T. E. Lovelace, treasurer; Alfred Fuses, recording secretary, and Charles Jahn, financial secretary.

The next meeting will be held Thursday, February 12, and all grocery clerks are invited to attend.

GROCERY CLERKS' UNION.
